REDUCED PRICES: The buying public in expecting a reduction in prices on all lines, and in order to meet this demand we have decided to offer most of our trees at a price that will move them. This in the face of the fact that it has cost us, in many instances, two, three, and even four times as much to produce our stock as it did before the war. We are not waiting till near the end of the season to cut prices when the stock would be picked over, but are making the reduction just at the beginning of the spring planting. February and March are always our busiest months. We continue selling trees, shrubs, evergreens and roses until April 15th; greenhouse plants, seeds, etc., till June, and cut flowers, poultry supplies, etc., are sold all the year round.

PLANT FRUIT. We believe there is big money in growing fruit, especially in the smaller orchards to supply local markets. There is less fruit grown in Texas now than there was twenty or thirty years ago, while the population has increased threefold, and people have been educated to the use of fruit and are willing to pay four times as much for fruit than they did in the years gone by. Everybody that has grown fruit in the last few years has done exceedingly well. Only a few days ago a citizen of Fort Worth told the writer of raising \$40 worth of peaches on one tree last summer, and we ourselves had one plum tree that produced \$25 worth of fruit in one season. An acre of trees of the right varieties and properly cared for ought to yield ten times as much as ten acres of cotton with one-tenth the labor and expense. If every farmer would raise plenty of fruit and vegetables there would be far more prosperity and happiness in the land and very little would have to be paid out for doctor bills.

ORNAMENTAL PLANTING is also very profitable in dollars and cents. The best real estate men recognize this, and find that the best money spent on a new place is the money spent for trees and shrubbery. We have in mind one place where \$34.00 was thus spent on a home that yielded \$3,000.00 in six months; another where \$240.00 yielded \$2,000.00 in two years, and another where \$30.00 brought \$500.00 in eleven months. These are not guesses, but are actual and true figures.

TERMS: Cash with order. We deliver our trees in good condition to the transportation companies, but do not give any guarantee as to their safe delivery or as to their growing. All prices f. o. b. Fort Worth.

RELIABILITY. We are members of the American Association of Nurserymen, and no one can obtain or retain membership in it who is not honorable and fair in his dealings. Address

EVERGREENS

Our evergreens this year are magnificent, doubtless the finest in the Southwest. Many of them are too large to ship by express or freight, except in carload lots, as the very large ones should be shipped with a heavy ball of dirt around the roots "balled," as we call it. Parks, cemeteries and private estates needing large lots should send a man here to make selections. There is a special

cheap freight rate on balled evergreens.
